Our design is purposeful, simplistic, and elegant while staying true to our unique aesthetic.

## Design Vision

Everything the guest encounters within the space is triggered by design. Ultimately we are designing experiences. The spaces are simply the tools we use to create the emotions guests feel within them.

The AC Hotels identity reflects two key values: purposeful and simplistic design. Understanding how to interpret these key values ensures a true AC Hotels experience.

Designed with a purpose,  
the harmonious space is  
clean and expansive.

## AC x Mangosteen

Amenities for the Essentialists to discover a collection of unique and local sensory experiences which are accessible and have a point of view from brands they connect with.

## Mangosteen is a lifestyle brand with a social mission to change lives through the way we live.

Mangosteen was conceived as a project that aims to introduce to the world the fresh and unique Southeast Asian scents and fragrances that derive from the amazing diversity of flowers, fruits and herbs that flourish in this lush and verdant part of the world.

At the centre of this region is Malaysia, home to some of the oldest rainforests in the world and the rarest plant and animal life on the planet.

It is also where the exquisite fruit, mangosteen is found. With its thick deep purple skin that opens up to pure white segments of sweet tangy subtly scented fruit, it is locally regarded as the queen of fruits.

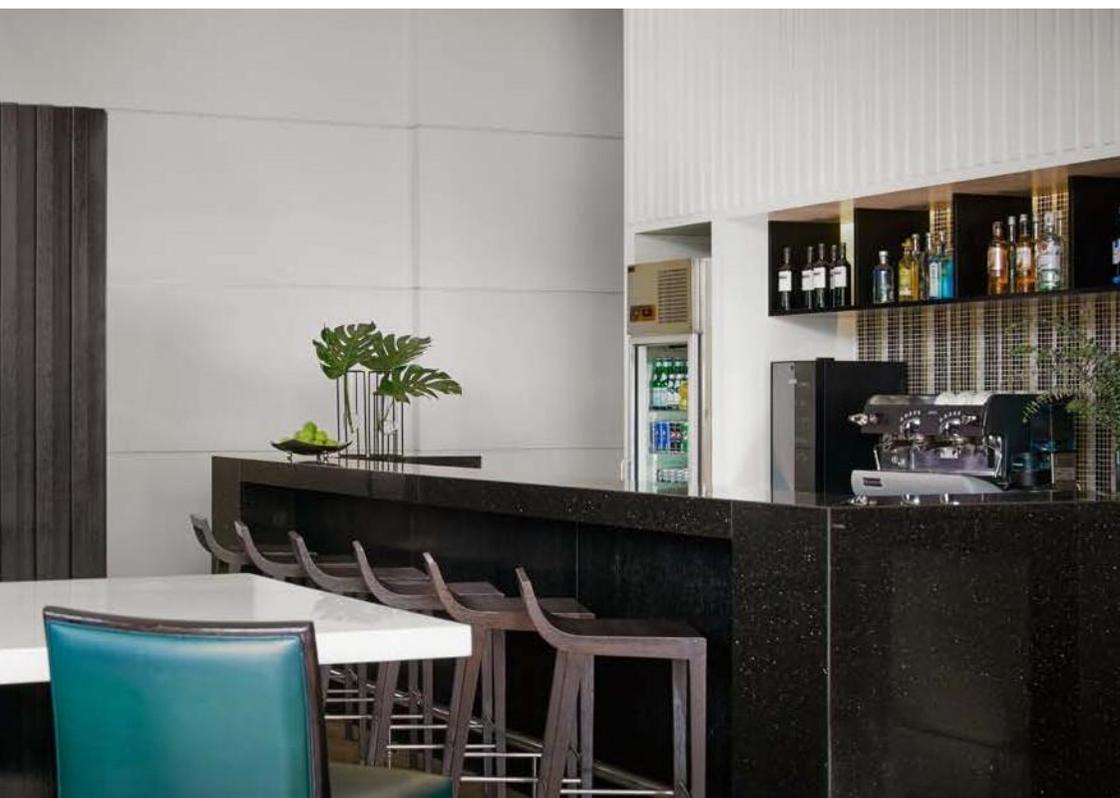

## AC EXPERIENCE
